Training Concept with Prospects

Many refugees face a problem of communicating in the German language, however, do have a good command of the English language. For those people, participating in a professional training taught in the English language can be a huge benefit: Course participants will have the opportunity to enhance their professional qualifications in English and, at the same time, acquire new expertise for their future career.

Requirements

1. Good command of English language
2. Basic computer skills
3. Interview about personal prospects

Exceptions require consent of COMCAVE and the respective cost unit, e.g. the Employment Agency (Arbeitsagentur) or the Jobcenter. Further admission requirements are given by the cost unit.

Fees and Funding Opportunities

The professional training is certified according to AZAV (Akkreditierungs- und Zulassungsverordnung Arbeitsförderung).

Funding opportunities can be obtained of up to 100 percent via an education voucher from the Employment Agency (Arbeitsagentur; SGB III) or Jobcenter (SGB II), from pension insurance institutions (Rentenversicherungsträger), the European Social Fund (Europäischer Sozialfond) or in accordance with the Soldiers' Pensions Act (Soldatenversorgungsgesetz).

For further information please contact your local Employment Agencies/Jobcenter, pension insurance institutions or the BFD (Berufsförderungsdienst der Bundeswehr).

Flexible Education Concept

Course participants can choose to study either at the on-site training center or at home. Next to the classroom teaching in the classical sense, course participants choose between the following education forms:

50% Online Learning

In the mornings, course participants attend tutor-led classes at one of our on-site training centers while in the afternoons, they attend classes at home.

100% Online Learning

Course participants attend virtual online classes via video conferencing and benefit from learning remotely.

Qualification Modules

- Cloud Network Expert: Cloud Practitioner incl. Amazon-AWS-Certification
- Cloud Network Expert: Solutions Architect Associate incl. Amazon-AWS-Certification
- Cloud Network Expert: Azure Solutions Architect Expert incl. Microsoft-Certification
- Agile IT Project Management: SCRUM-Master-Certification
- 3D Construction Specialist: Autodesk 3ds Max
- 3D Construction Specialist: Autodesk 3ds Max for Experts

The qualification measure consists of selectable modules. Based on the candidate's previous knowledge and professional experience, our career consultants compose an individual learning pathway which meets the candidate's prospective career goals.

Certifications

Certifications are optional and depend on the chosen qualification modules.

- AWS Cloud Practitioner
- AWS Solutions Architect Associate
- Azure Solutions Architect Expert
- Oracle Java Foundations Certified Junior Associate
- SCRUM-Master
